Coastal Defences & Beach Monitoring

Carl Green, Head of Engineering - Wyre Council

Find out about the process by which our sea defences are maintained and redeveloped. Including an overview of the £64m Rossall Scheme which is due to be completed in coming months and what will happen to strengthen the coastal defences at Rossall Beach in the future.

Plus, find out about a new project to monitor beach movement that you will be able to contribute to. Information collected by the public will be used alongside scientific data to get a better understanding of how our shoreline moves.

**This interesting presentation is open to everyone
no need to be a member of the group.**
